Mr. Dwain Nell Brohm Mining Corporation Gilt Edge Rd, P.O. Box 485 - Nemo Route Deadwood, SD 57732

Dear Dwain:

This letter is to confirm your participation in the Advanced Mine Planning Seminar January 28-30, 1991. The intent of the seminar is to provide advanced information to existing MEDSYSTEM users. You must be familiar with run files, plotting, digitizing, editing and running MEDSYSTEM. Preferably, you have already attempted mine planning and scheduling with MEDSYSTEM so that you are familiar with the programs and the scope of the problem. Please come prepared with data and plots for any special problems or questions. If time permits, we will look at them in the seminar.

The seminar is designed to be hands-on. Starting with a block model, we will design DIPPER pits and STRIPPER pits (with roads) and then develop long-range and short-range schedules. During the seminar, we want to run as many of the programs as possible with as many of the options as we can. Topics to be covered are listed on the next page. Depending on the group's interests, we may choose to skip some topics or add more.

Because another training session has been scheduled at Mintec for the same week, we have arranged to hold this seminar off-site. The Viscount was unable to provide us with meeting space so we have switched your hotel reservations to the Embassy Suites, 5335 E. Broadway. The rate is \$55/night. If, for any reason, you find you have to cancel or change the reservations, please let Laurie Bernard know as soon as possible.

Directions to the hotel from the airport are: East (right) on Valencia to Alvernon (about 2 miles), turn north (left), Alvernon turns into Golf Links and curves eastward to Swan (about 5 miles), turn north (left) to Broadway (about 2 miles), turn east (right) to the Embassy Suites (about 3/4 mile on your left).

We look forward to seeing you.

Sincerely,

Doris J. Morris
